REV IT UP!

Happy 30th Anniversary RJ Cars 2019!

Happy Holidays from me, my family, and my staff here at RJ CARS INC. We know everyone out there is extremely busy this time of year and we wish you all the best this holiday season. We're officially going to start celebrating the 30th Anniversary of RJ CARS INC coming up in 2019!!! How 30 years has blown by....seemingly so fast, is beyond my comprehension! Many thanks are in order for all the people who have helped me and my business be successful over these last 3 decades. There are far too many people to list and some of them are now watching over us from beyond this day to day world.

I've been fortunate to live out some of my dreams through having this business...the cool cars, the creative and interesting people on this journey... have been more than I imagined!

All my best to all of you!

*Restoringly,
Russell*

Anniversaries We Celebrated in 2018!

Congrats to Jason on his 10 year work anniversary with RJ CARS INC! Jason's skilled hands smooth, prep, paint, buff and assemble many of the gorgeous cars that pass through our shop and to the show fields and magazine articles published!

Thank you Jason!

Matt Jacobs

Matt has been part of RJ CARS INC since birth. We opened up the shop the year he was born. Congrats to Matt for being back with us full time for the last 5 years! He has spent countless hours welding, wrenching, assembling, detailing, tuning and test driving many of our project cars that he takes great pride in.

Thank You Matt!

Jason Gerych

1972 El Camino

Jim Joyce never let this one leave home. Originally a 454 car that Jim said lasted all of 9 miles on the way home from the dealer! The old Chevy shows just over 51K miles on the odometer.

The frame and underbody has just enough rust showing that we opted to pull it off the frame and get it blasted clean. We are also installing new quarter panels to make it completely solid again.

Watch for more updates as we start putting this one back together over the coming months.

1959 Cadillac Coupe DeVille

Jason and Jake have worked diligently to save the body of this old Cadillac. The exterior finish is really taking shape now as it's being worked through the multiple coats of primer and block sanding. Soon it will start getting edged with the original shade of Breton Blue that it came with from the factory. This one has been a long challenging process, but it's starting to look like a car again! Watch for the color photos and more updates soon on this restoration.

Remembering 30 Years!

Kenna's Corner...

Hi, It's Kenna here at Kenna's corner. Time has been flying by with school starting up. Being a sophomore is super busy, especially with all the extra classes I have to take, but I've had a pretty good distraction with all the holidays coming up. Before Thanksgiving I went to my grandfather's house and my mom and I made a mini Thanksgiving dinner. My dad and I got a chance to take his dog for a nice long walk in the cold. It was a nice way to kick off the Holidays!

Happy Holidays!

Kenna
